EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Guenzer on November 30, 2005.

The application has been amended as follows:

Claim 1, line 9, insert "said" before "RF".

Claim 7, line 1, replace the phrase "magnetic" with " RF ".

On Page 6 of Applicant's Amendment replace the phrase "Claims 28-32. (Canceled)" with the phrase "Claims 28-33 (Canceled)".

The following is an examiner's statement of reasons for allowance:

Claims 1-8 are allowable over the prior art of record because the prior art of record does not teach the subject matter as claimed including an RF coil arranged around the central axis; and an annual magnetic ring producing a DC magnetic field inside of the RF coil at least partially along the axis, being disposed radially outside of said RF coil, and being at least partially axially coextensive therewith.

Claims 9-12, 24 and 35 are allowable over the prior art of record because the prior art of record does not teach the subject matter as claimed including a single-turn coil arranged around the central axis in a lower half of the processing space and having

a tubular shape and an annular magnet ring radially outside of the chamber and being at least partially axially coextensive with the coil.

Claims 25-27 and 34 are allowable over the prior art of record because the prior art of record does not teach the claimed subject matter as claimed including a first electromagnetic coil and a second electromagnetic coil each comprising a respective multi-turn coil and coaxially arranged around the central axis radially outside of the processing space, wherein the second electromagnetic coil is disposed radially outside of the first electromagnetic coil and is at least partially coextensive therewith along the central axis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M- Th with Every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
